Tuesday 13th September 2022

Dear Parents/Carers,

I am meeting later today with the Project Manager from Grahams, the company who are carrying out our roofing repairs. Following this meeting, I am hoping to be able to give you an update on the timescale left for the works to be completed and whether or not parts of the scaffolding can come down in order to enable us to become fully operational using the main entrance at the start and end of the school day.

I would like to thank you for your continued support with the arrangements we currently have in place and remind you that our registers will stay open until 9am in order to support our families getting into school.

We are aware and fully appreciate that the roofing work is having an impact on car parking around the school site and the nearby roads, and I need to ask all parents to take great care and consideration when looking for a safe space to park. We have received some reports of drivers blocking the pavements, meaning it is unsafe for people with pushchairs to navigate their way to and from school safely and other reports of parents/carers leaving cars in places that are not safe for our community.

I have contacted our local PCSO this morning to ask if they can support our school community with this in the short term, until we can resume our typical procedures again. In the meantime, I urge all parents and carers to drive and park with great caution in order to ensure the safety of our children and their families at all times.

Yours faithfully

Mrs S Baker
