

St. Luke's CE First School – Online Safety

Online Safety is part of our Computing and PSHE Curriculum and is taught throughout the school year in every year group. The information below, provides links to websites that may support parents and carers at home to understand how they can help their child to stay safe when using the internet. Please feel free to use any of these resources to support your own knowledge of issues and to help you to talk to your child about online safety, internet rules and how they should deal with inappropriate online content or messages. We are also available at school should you wish to discuss any concerns or for any additional advice.

Thinkuknow

Online content, advice and support from the Child Exploitation and Online Protection team (CEOP).

Our Pact

Our Pact is a parental control app for Apple devices that enables parental involvement in children's device habits through Internet and application blocking. The parental control solution allows parents to manage their child's screen time at any time, and from anywhere. Download from the App store.
